## DETAILED ACTION

### *Claim Rejections - 35 USC § 112*

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 15, 18 and 19 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

1. Claim 15 uses the terms “dissoluble solvent” and “indissoluble solvent”. These make no sense, and may be an incorrect translation. The traverse is unpersuasive. Applicants point out that the terms appear on page 9, line 1. That sentence however does not say what these terms mean. These are not standard terms. The prefix “dis-” normally carries the meaning of not or not any, as in dissimilar (meaning not similar), disagree, disbelieve, discomfort, discredit, disrepair, and disrespect. But “in-” also is negative. The remarks at any rate do not say what “indissoluble solvent” means, and this is not standard nomenclature.
2. Claim 19 now has “wherein a 1 hydrate crystal” which is unclear. Is there intended “wherein a” or perhaps “wherein one”? Is this meant to convey that the crystal has only one hydrate in it (rather than having a mixture)? Does it mean a monohydrate? These are all different choices. The traverse is unpersuasive. Applicants point to the use of the term “1 hydrate” on page 12, line 25, but that is talking about a different molecule that exists in the prior art. Moreover, it is still unclear what it means.

Art Unit: 1624

Claim 16 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
